Each plate has on the inside 3 beds for the shot, of a depth equal to half the thickness of the plate. They are made in the form of a spherical segment, the curvature of which is the same as that of the shot; their centers are on equidistant radii, midway between the edge of the bolthole and that of the plate. In the upper plate are 2 holes. 25 inch diameter placed opposite to each other at. 5 inch from the edge of the plate to receive a rope handle. For the 8-inch siege-howitzer the stand of grape must be attached to a sabot as for canisters. The sabot may be fastened to the lower plate with screws, or the bolt may be made long enough to pass through it, or else the sabot may be inserted into the piece separately from the stand of grape.
