Reviews

The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.

(Dr. Reta Murphy)

NEUROENDOCRINE TUMOURS OF THE DIGESTIVE TRACT IN AUSTRIA

Sudwestdeutscher Verlag Fur Hochschulschriften AG. Paperback. Book Condition: New. Paperback. 176 pages. Dimensions: 8.7in. x 5.9in. x 0.4in. Neuroendocrine tumours of the digestive tract are rare neoplasms deriving from the neuroendocrine cells spread along the digestive tract from the oesophagus to the rectum. This book aims to summarize the current knowledge about the origin and hormones of neuroendocrine cells in the digestive tract and the current staging- and grading systems for neuroendocrine tumours. Data on the incidence of gastroenteropancreatic neuroendocrine tumors (GEP-NETs) have so far only been obtained retrospectively and are based on inhomogeneous material. So the research part of this book presents a prospective study collecting all newly diagnosed GEP-NETs in Austria during one year. Using the WHO 2000-classification, the TNM staging and Ki67-grading, and the standard diagnostic procedure proposed by the European Neuroendocrine Tumor Society (ENETS), GEP-NETs from 285 patients were recorded. Additionally the practice of diagnosis and treatment in Austria is addressed and describes unmasked clinical symptoms, methods of diagnosis, treatment, and short-term follow-up of neuroendocrine tumors of the digestive tract diagnosed during one year in Austria. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
